

Section 1. IDENTIFICATION

Heavy Duty Descale Concentrate

Description/Use: Oven and Kitchen Descaler **Product Code:** FL839 (5L) FL*** (1L)
Supplier Code: 8-203-05000 (5L) 8-203-01000 (1L)

Business Name: Made by Zexa

Address: 28 Strathmore Road, Caves Beach NSW 2281

Phone: +61 2 4970 7777

Fax: + 61 2 9475 4880

Email: sales@zexa.com.au

Website: www.zexa.com.au

Issue Date: 1st October 2024

Review Date: 1st October 2029

Use only according to directions on product spec sheet and label.

Poisons Information Centre: Australia: 13 11 26 NZ: 0800 764 766

Section 2. HAZARDS IDENTIFICATION

Statement of Hazardous Nature

This product is classified as hazardous according to the criteria of Safe Work Australia (SWA).

SUSMP Classification: S6

ADG Classification: Class 8: Corrosive Substances.

UN Number: 1805, PHOSPHORIC ACID, SOLUTION

GHS Signal word: DANGER

HAZARD STATEMENT:

H290: May be corrosive to metals.

H314: Causes severe skin burns and eye damage.

PRECAUTIONARY STATEMENT:

Do not breathe mists or vapour. Wash hands thoroughly after handling. Wear protective gloves, protective clothing and eye/face protection.

PREVENTION:

P102: Keep out of reach of children.

P103: Read label before use.

P234: Keep only in original container.

P260: Do not breathe fumes, mists, vapours or spray.

P262: Do not get in eyes, on skin, or on clothing.

P264: Wash contacted areas thoroughly after handling.

Heavy Duty Descale Concentrate

SAFETY DATA SHEET

P280: Wear protective gloves, protective clothing and eye or face protection.

RESPONSE:

P101: If medical advice is needed, have product container or label at hand.

P363: Wash contaminated clothing before reuse.

P301+P310+P330+P331: IF SWALLOWED: Immediately call a POISON CENTRE or doctor/physician. Rinse mouth. Do NOT induce vomiting.

P303+P361+P353: IF ON SKIN (or hair): Remove immediately all contaminated clothing. Rinse skin with water.

P304+P340: IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.

P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P332+P313: If skin irritation occurs: Get medical advice.

P337+P313: If eye irritation persists: Get medical advice.

P390: Absorb spillage to prevent material damage.

P391: Collect spillage.

P370+P378: Not combustible. Use extinguishing media suited to burning materials. Water fog or fine spray is the preferred medium for large fires.

STORAGE:

P406: Store in corrosive resistant container with a resistant inner liner.

P402+P404: Store in a dry place. Store in a closed container.

P403+P233: Store in a well-ventilated place. Keep container tightly closed.

DISPOSAL:

P501: Dispose of small quantities and empty containers by wrapping with paper and putting in garbage. If they cannot be recycled, dispose of contents to an approved waste disposal plant and containers to landfill (see Section 13 of this SDS).

Section 3. COMPOSITION INFORMATION

Ingredients (mg/m ³)	CAS No	Conc, %	TWA (mg/m ³)	STEL
Phosphoric acid	7664-38-23	30-40	Not set	Not set
Other non hazardous ingredients		to 100	Not set	Not set

This is a commercial product whose exact ratio of components may vary slightly. Minor quantities of other non hazardous ingredients are also possible.

The SWA TWA exposure value is the average airborne concentration of a particular substance when calculated over a normal 8 hour working day for a 5 day working week. The STEL (Short Term Exposure Limit) is an exposure value that may be equalled (but should not be exceeded) for no longer than 15 minutes and should not be repeated more than 4 times per day. There should be at least 60 minutes between successive exposures at the STEL. The term "peak" is used when the TWA limit, because of the rapid action of the substance, should never be exceeded, even briefly.

Section 4. FIRST AID

Heavy Duty Descale Concentrate

SAFETY DATA SHEET

Inhalation: Move victim to fresh air. If symptoms develop, seek medical advice.

Swallowed: Flush mouth with water. DO NOT induce vomiting. Get immediate medical attention. For advice, call the POISONS INFORMATION CENTRE PH: 13 11 26 (Australia Only)

Eye Contact: Immediately rinse with plenty of water for at least 15 minutes, holding eyelids open. Remove contact lenses if present and easy to do. Continue rinsing. For advice, call the POISONS INFORMATION CENTRE PH: 13 11 26 (Australia Only)

Skin Contact: Wash skin with plenty of water. Remove contaminated clothing and wash before reuse.

Symptoms caused by exposure: Irritating and burning sensation after contact.

Medical attention and special treatment: No Specific treatment. Treat symptomatically.

Section 5. FIRE FIGHTING MEASURES

This product is not flammable under the conditions of storage and use and does not support combustion.

Extinguishing Media: Use the extinguisher appropriate to the principal fire hazard or to the source of the fire eg dry chemicals, CO₂ or water fog.

Specific Hazards: None known.

Hazardous Combustion Products: If this product is involved in a fire, the water contained in it may evaporate, leaving a residue which may combust. During combustion, the residue may produce carbon monoxide as well as other unidentifiable organic compounds.

Protective Equipment: Fire fighters should wear full protective clothing including self-contained breathing apparatus and chemical splash suit. Remove containers not involved in the fire from the vicinity. Ensure no spillage enters drains or water courses.

Flash Point: This product will not flash and does not support combustion.

Flammability: This product is not flammable under the conditions of use and does not support combustion.

Section 6. ACCIDENTAL RELEASE MEASURES

Spills & Disposal

Note: spillages are slippery. Wear appropriate protective equipment. Cordon off the spillage area. Isolate the source of the spillage or leak. Contain the spillage using a suitable non-flammable absorbent material such as sand or diatomaceous earth, and then transfer into sealed plastic containers for disposal.

Heavy Duty Descale Concentrate

SAFETY DATA SHEET

Section 7. HANDLING AND STORAGE

Store in plastic containers in a clean, dry, cool, well ventilated place away from foodstuffs. Store away from incompatible materials described in Section 10. Store away from sources of heat and/or ignition. Keep container standing upright. Keep containers sealed when not in use. Check regularly for leaks. It is recommended that this product be dispensed through approved dispensers.

Avoid eye contact and skin contact. Avoid inhalation of vapour, mist or aerosols.

This material is classified as a Class 8 Corrosive as per the criteria of the "Australian Code for the Transport of Dangerous Goods by Road & Rail" and/or the "New Zealand NZS5433: Transport of Dangerous Goods on Land" and must be stored in accordance with the relevant regulations.

This material is a Scheduled Poison 6 (Danger) and must be stored, maintained and used in accordance with the relevant regulations.

Section 8. EXPOSURE CONTROLS & PERSONAL PROTECTION

National Exposure Standards

No value assigned by NOHSC for any ingredients used in this product. The following components have been listed with an OEL as per Safe Work Australia (SWA) – Workplace Exposure Standards for Airborne Contaminants.

Ingredients (mg/m ³)	CAS No	Conc,%	TWA (mg/m ³)	STEL
Phosphoric acid	7664-38-23	30-40	Not set	Not set

Individual Protection Measures

Not required under normal conditions of use. The following Australian Standards provide general advice regarding safety clothing and equipment:

Respiratory equipment: AS/NZ 1715; Protective gloves: AS2161; Occupational Protective Clothing: AS/NZS 4501 2008; Industrial Eye Protection: AS 1336 and AS/NZS 1337; Occupational Protective Footwear: AS/NZS 2210.

No special equipment is usually needed when handling small quantities. The following are for bulk handling or where regular exposure in an occupational setting occurs without proper containment systems.

Eye and face protection: safety glasses or chemical resistant goggles should be worn to prevent eye contact. It is also recommended to provide eyebath or eyewash facilities in an area close to where the product is being used.

Skin protection: Information at hand indicates that this product is not harmful and normally no special skin protection is necessary. However, we suggest that you routinely avoid skin contact with all chemical

Heavy Duty Descale Concentrate

SAFETY DATA SHEET

products and that you wear suitable gloves (preferably elbow-length) when skin contact is likely.

Respiratory protection: Not normally needed. If significant vapours or mists are generated, use an appropriate respirator in accordance with AS/NZS 1715.

Engineering Controls

This product should only be used in a well-ventilated area. If natural ventilation is inadequate, use of a fan is suggested.

Section 9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance:	Liquid	Colour:	Pinky Red
Flashpoint (°C):	Not available	Boiling Point (°C):	Not available
Flammability Limits (%):	Not flammable	Vapour Pressure:	Not available
Water Solubility:	Complete	Specific Gravity:	1.24
Odour:	Acidic	pH:	0.1 to 0.9
Auto-ignition temperature:	Not available	Viscosity:	Not available

Section 10. STABILITY AND REACTIVITY

Relative Density: Not available

Evaporation rate: Not available

Vapour pressure: Not available

Melting/freezing point: Not available

Partition Coefficient: n-octanol/water: Not available

Upper/Lower Flammability or Explosive Limits: Not available

Reactivity: Reacts with strong alkalis.

Chemical Stability: Considered stable. For extended storage life, store below 30°C and keep out of direct sunlight.

Possibility of hazardous reactions: Low.

Materials to Avoid: Strong oxidising agents. Metals such as aluminium, copper, nickel, cobalt, iron.

Hazardous Decomposition Products: Oxides of phosphorous, contact with metals produces hydrogen gas.

Conditions to Avoid: High temperatures (store below 30°C). Protect against physical damage.

Section 11. TOXICOLOGICAL INFORMATION

No adverse health effects expected if the product is handled in accordance with this Safety Data Sheet and the product label.

Information on Route of Exposure Acute Toxicity:

Ingestion: No effects known
Eye Contact: No effects known
Skin Contact: No effects known
Inhalation: No effects known
Skin Corrosion/Irritation: Corrosive. Causes severe skin burns and permanent tissue damage.
Serious Eye Damage/Irritation: Corrosive. Causes severe burns and eye damage.

Section 12. ECOLOGICAL INFORMATION

Respiratory or Skin Sensitisation: Not classified
Germ Cell Mutagenicity: Not classified
Carcinogenicity: Not classified
Reproductive Toxicity: Not classified
Specific Target Organ Toxicity (STOT) – Single Exposure: Not classified
Specific Target Organ Toxicity (STOT) – Repeated Exposure: Not classified
Aspiration Hazard: Not classified
Immediate, Delayed or Chronic Health Effects From Exposure: None known

Ecotoxicity: No product data available.
Persistence and Degradability: Not readily biodegradable.
Bioaccumulative Potential: Low bioaccumulation potential.
Mobility in Soil: Low sorption to soil/sediment, rapid migration to ground water sediment.
(Estimated Log KOC value (EpiSuite 4.1 KOCWIN) <1)

Section 13. DISPOSAL CONSIDERATIONS

Disposal methods: Refer to Waste Management Authority. Dispose of contents/container in accordance with Local/regional/national/international regulations.

Section 14. TRANSPORT INFORMATION

Classified as Dangerous Goods by the criteria of the Australian Dangerous Goods Code for transport by Road and Rail.

UN Number: 1805, PHOSPHORIC ACID, SOLUTION

Hazchem Code: 2R

Special Provisions: 223

Limited quantities: ADG 7 specifies a Limited Quantity value of 5L for this class of product.

Heavy Duty Descale Concentrate

SAFETY DATA SHEET

Dangerous Goods Class: Class 8: Corrosive Substances.

Packing Group: III

Packing Instruction: P001, IBC03, LP01

Note 1: Concentrated strong alkalis are incompatible with concentrated strong acids.

Note 2: Concentrated strong acids are incompatible with concentrated strong alkalis.

Note 3: Acids are incompatible with Dangerous Goods of Class 6 which are cyanides. Exemptions may apply.

Section 15. REGULATORY INFORMATION

All ingredients are listed in the Australia Inventory of Chemical Substances (AICS). This document has been produced in accordance with the requirements of GHS of classification and labelling.

This SDS summarises at the date of issue our best knowledge of the health and safety hazard information of this product, and in particular how to safely handle and use this product in the workplace. Since the supplier cannot anticipate or control the conditions under which the product may be used, each user must, prior to usage, review this SDS in the context of how the user intends to handle and use the product in the workplace. If clarification or further information is needed to ensure that an appropriate assessment can be made, the user should contact this supplier.

Section 16. OTHER INFORMATION

Abbreviations and acronyms:

ADG Code: Australian Code for the Transport of Dangerous Goods by Road and Rail.

AICS: Australian Inventory of Chemical Substances.

CAS Number: Chemical Abstracts Service Registry Number.

GHS: Globally Harmonized System of Classification and Labelling of Chemicals

HAZCHEM: An emergency action code of numbers and letters which gives information to emergency services.

HSIS: Hazardous Substances Information System.

IARC: International Agency for Research on Cancer.

NOHSC: National Occupational Health and Safety Commission.

NTP: National Toxicology Program (USA).

SDS: Safety Data Sheet

STEL: Short Term Exposure Limit.

SUSMP: Standard for the Uniform Scheduling of Medicines and Poisons.

TWA: Time Weighted Average. UN Number: United Nations Number.
