

Heavy Duty Oven & Grill Cleaner

Ready to Use

PRODUCT DESCRIPTION:

Jantex Heavy Duty Oven & Grill Cleaner is a powerful, ready to use solution highly suited to removing carbon and fat deposits. It works quickly on hard to clean kitchen equipment such as grills, hotplates, ovens, rotisseries and deep fryers.

The blend of active ingredients in this product works to break down and remove heavy build-ups and baked on residues without destroying the main surface structure.

Note: avoid contact with soft metal surfaces, such as aluminium and zinc.

DIRECTIONS FOR USE:

- Dispense Ready To Use solution into trigger spray bottle, do not dilute.

Grills & hot plates: Spray directly onto the warm (but not hot) surface. Allow to soak for 5 minutes. Use a hard bristle brush to remove heavy deposits. Rinse clean with water.

Ovens & rotisseries: Heat the oven to 90°C. Turn off the oven, then spray a liberal coating over walls and shelves. Close the door and leave for 10 minutes. Wipe clean with a wet rag. Before reusing the oven, preheat it for 10 minutes.

Deep fryers: Drain the deep fryer and rinse with hot water. Spray the surface and allow to soak for 5 minutes. Use a hard bristle brush to remove heavy deposits. Rinse clean with water.

PACK SIZE/S: 5L

ORDER CODE/S: FL842

KITCHEN & FOOD PREP

FEATURES:

- Quickly dissolves carbon deposits & baked on grease
- Heavy duty cleaning for a variety of kitchen equipment types
- Ready To Use formula
