

Floor Cleaner

Concentrate

GENERAL CLEANING

PRODUCT DESCRIPTION:

Jantex Floor Cleaner is a unique blend of surfactants, water conditioners and water-based solvents formulated to quickly penetrate, clean and protect all types of hard surfaces.

A highly dilutable and versatile product, Jantex Floor Cleaner is well-suited for use on surfaces such as vinyl, stone, ceramic tiles, sealed floors and timber. It can also be used on painted walls, laminate and polished metal.

This is a non-corrosive and non-abrasive solution, which makes it kind to surfaces, users and handlers of the product.

The gentle, citrus fragrance imparts a comforting, refreshing residual aroma to surfaces and spaces in which the product is used.

DIRECTIONS FOR USE:

Normal duty: Dilute 50mL concentrate to 5L of water in a wringer bucket.

Heavy duty: Dilute 125mL (1/2 cup) concentrate to 5L of water in a wringer bucket.

Automatic scrubbers: Dilute 250mL (1 cup) concentrate to 20L of water in a solution tank.

PACK SIZE/S: 5L, 15L
