

Heavy Duty Descale

Concentrate

PRODUCT DESCRIPTION:

Jantex Heavy Duty Descale provides superior cleaning for commercial glass and dishwashers. It achieves this by removing scale build-up and rust from stainless steel surfaces in machine wash chambers, leaving surfaces bright and shiny.

This economical concentrate keeps the inner workings of commercial warewashing machines spotless, optimising performance. Also suitable for cleaning stainless steel tanks and boilers and as a Clean In Place (C.I.P) solution.

DIRECTIONS FOR USE:

Dip tank cleaner/descaler: Dilute 1-part solution to 5-parts water. The tank may be heated to increase cleaning efficiency.

Boiler treatment: Dilute 1-part solution to 10-parts water. The boiler tank may be heated to increase cleaning efficiency.

C.I.P. Cleaner: Dilute 1-part solution to 20-parts water. Squirt onto surface, wipe off.

Warewashing Machines: Turn dispensing unit off. Fill wash tank, add 250-500mL of solution, depending on the degree of build-up. Run wash cycle until complete. After wash cycle, examine the machine for areas of heavy build up and use product neat with scourer to remove heavy deposits.

Rinse all treated areas with water before re-use.

PACK SIZE/S: 1L 5L

ORDER CODE/S: HU546 FL839

KITCHEN & FOOD PREP

FEATURES:

- Removes water scale, prevents build-up & clogging
- Flushes through all inner workings of the machine
- Easy to use
- Highly concentrated
- Australian made

BENEFITS:

- Leaves stainless steel surfaces bright & clean – no need for aggressive scrubbing
- Reaches areas hard to access by manual cleaning
- Helps minimise energy costs & optimises performance
- Made to suit Australian conditions, quality & safety requirements
