

Medicated Hand Soap

Anti-bacterial Fragrance Free Foam

HAND HYGIENE

PRODUCT DESCRIPTION:

Zexa Medicated Hand Soap is a fragrance free, anti-bacterial high-foaming hand cleanser that is designed to eliminate bacteria on the skin. It is highly effective against a broad spectrum of microorganisms and suitable for all situations where reducing the possibility of microbial cross-contamination is important.

Gentle and emollient-rich, it helps condition the skin whilst reducing transient bacteria. The fragrance-free formula makes it suitable for use by those with sensitive skin or noses and practical for use in food preparation areas.

This product is suitable for frequent hand washing and best dispensed by a foam dispenser top.

DIRECTIONS FOR USE:

1. Dispense ready to use soap into Refill dispensers with foam head as required
