ORIGIN:	Australia
WARRANTY:	1 Year (refer to website)

Heat 'n' Hold

Heat 'n' Hold showcases your hot food and maximizes the display life of the product by delivering even and consistent temperatures.

The Heat 'n' Hold is a new generation of food display warmer – designed to hold your products at the desired temperature anywhere in the cabinet. Your products will appear and taste appetising.

The Heat 'n' Hold utilises the dual elements and dual fans to achieve precise temperature control & uniform temperature throughout the cabinet. Your customers will enjoy the difference & your products will have a better shelf life.

The Heat 'n' Hold also has a "Pre-Heat" function that allows you to speed up the cabinet preheating process without burning your products. It can also assist in busy periods when the doors are frequently opened.

The Heat 'n' Hold comes standard with 8 x 737mm bakers trays, but additionally each rack will accommodate 2 x Gastronorm pans capable of displaying a variety of foods.

The Heat 'n' Hold is ideal for pies, pastries, pretzels, chickens and other hot food products.

FEATURES

- With dual element and dual fan forced heating
- Precise temperature control which maximizes food quality and display life
- Pre-Heat function for faster heat-up
- Timer control on pre-heat setting
