Plate Warmer

Instruction manual

Model:
GP451-A / GP452-A

Safety Instructions

Please take a few moments to carefully read through this manual. Correct maintenance and operation of this machine will provide the best possible performance from your Apuro product.

- Position on a flat, stable surface.
- A service agent/qualified technician should carry out installation and any repairs if required. Do not remove any components on this product.
- Consult Local and National Standards to comply with the following:
 - Health and Safety at Work Legislation
 - Fire Precautions
 - IEE Wiring Regulations
 - Building Regulations
- DO NOT clean with a water jet or steam cleaner.
- **Caution! Hot surface!**
- DO NOT store items on the top of the appliance.
- DO NOT obstruct or cover the appliance in any way when in use.
- DO NOT use an extension cable to power the appliance.
- Always switch off and disconnect the power supply to the appliance when not in use.
- Keep all packaging away from children. Dispose of the packaging in accordance to the regulations of local authorities.
- If the power cord is damaged, it must be replaced by an Apuro agent or a recommended qualified technician in order to avoid a hazard.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience or knowledge, unless they have been given supervision or instruction concerning the use of the appliance by a person responsible for their safety.

- Children should be supervised to ensure that they do not play with the appliance.
- Apuro recommend that this appliance should be periodically tested (at least annually) by a Competent Person. Testing should include, but not be limited to: Visual Inspection, Polarity Test, Earth Continuity, Insulation Continuity and Functional Testing.

Pack Contents

The following is included:

- Plate Warmer
- Shelf (x3)
- Instruction Manual

Apuro prides itself on quality and service, ensuring that at the time of unpacking the contents are supplied fully functional and free of damage.

Should you find any damage as a result of transit, please contact your Apuro dealer immediately.

Installation

1. Remove the appliance from the packaging. Make sure that all protective plastic film and coatings are thoroughly removed from all surfaces.
2. Position the appliance on a flat, stable and heat-resistant surface and ensure the surface can support its weight when full.
3. Avoid placing it on or close to flammable materials. Maintain a distance of 20cm (7 inches) between the appliance and walls or other objects for ventilation.

Note: Before using the appliance for the first time, clean the shelves and interior with soapy water. Let dry completely and ensure no water goes into the appliance inside.

1/1 GN pans compatible, not included.

This appliance is intended to be used for commercial applications, for example in kitchens of restaurants, canteens, hospitals and in commercial enterprises such as bakeries, butcheries, etc., but not for continuous mass production of food.

Operation

- Connect the appliance to the mains power supply and turn on the power switch ("I" position).
- Set the thermostat to the desired temperature (30°C-85°C). The HEAT indicator light turns on and the appliance starts to heat up.
- When the set temperature is reached, the HEAT indicator light turns off. (Note: During use, the HEAT indicator light keeps on and off, indicating the set temperature is being kept.)
- Put the plates in. (Tip: When removing plates, it is recommend to use oven mittens to avoid burns/scalding.)
- **After use:** Set the thermostat to 'MIN' and turn off the power switch. Then disconnect from the power supply.

Overheating protection

This appliance is featured with an overheat protection. Should the temperature exceed safe levels the appliance will automatically cut off power.

The thermal Cut-out switch is located on the rear of the appliance. To reset the appliance after a sufficient cool-down period:

1. Unscrew the reset switch cover.
2. Press the small reset switch down until it clicks, using a blunt pointed instrument.
3. The appliance is now reset and can be used as normal.

Cleaning, Care & Maintenance

- Disconnect from the power supply and allow the appliance to cool before cleaning or servicing.
- Never immerse the appliance in water, nor rinse it under running water.
- Wipe the surface with a damp cloth.
- Dry thoroughly after cleaning.

Troubleshooting

A qualified technician must carry out repairs if required.

Fault	Probable Cause	Solution
The unit is not working	The unit is not switched on	Check the unit is plugged in correctly and switched on
	Plug or lead is damaged	Replace plug or lead
	Mains power supply fault	Check mains power supply
Appliance heats up but indicator light Not On	Indicator light has expired	Consult a qualified technician
HEAT indicator light comes on but appliance does not heat up	Faulty element	Consult a qualified technician
	Faulty thermostat	Consult a qualified technician
	Thermostat set incorrectly	Check thermostat
No power	Thermal cut-out switch is activated	Wait until the unit cools down. Please check your machine is safe with no obvious damage and then press the re-set switch

Technical Specifications

Note: Due to our continuous improvement process, the product specifications are subject to change without notice.

Model	Voltage	Current	Power	Capacity	Dimensions h x w x d mm	Weight
GP451-A	220-240V~ 50/60Hz	2.2A	500W	60 plates	850 x 400 x 600	21.4kg
GP452-A		4.3A	1000W	120 plates	850 x 600 x 600	29kg

Electrical Wiring

The plug is to be connected to a suitable mains socket.

Apuro appliances are wired as follows:

- Live wire (coloured brown) to terminal marked L
- Neutral wire (coloured blue) to terminal marked N
- Earth wire (coloured green/yellow) to terminal marked E

This appliance must be earthed.

If in doubt consult a qualified electrician.

Electrical isolation points must be kept clear of any obstructions. In the event of any emergency disconnection being required they must be readily accessible.

Compliance

The product must not be disposed of as household waste. To help prevent possible harm to human health and/or the environment, the product must be disposed of in an approved and environmentally safe recycling process. For further information on how to dispose of this product correctly, contact the product supplier, or the local authority responsible for waste disposal in your area.

Apuro parts have undergone strict product testing in order to comply with regulatory standards and specifications set by international, independent, and federal authorities.

Apuro products have been approved to carry the following symbol:
