Camview® GN Food Pans

GASTRONORM
STANDARD EN-631

Camview GN Food Pans are the BPA-free solution for clear visibility of the contents you serve. The robust, hard outer shell provides superior durability to be used in both hot and cold applications - from storage to transport and service.

- Molded-in graduations in standard and metric for easy inventory management.

- Uniform 1,27 cm flange ensures a smooth fit in prep tables and food bars.

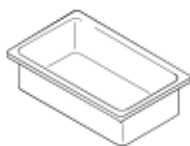

Camview Food Pans are made from a BPA-Free material that provides clarity, stain-resistance, and withstands temperatures from -40° to 90°C.

- Textured bottoms resist scratching.

- Non-stick smooth interior surface increases yields and promotes easy cleaning.

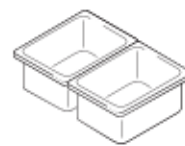

Won't react with food; minimizes potentially hazardous chemical or acidic reaction.

Cold Food Holding Test

Camview® VS. Stainless Steel

Side by side test results below prove that Cambro Camview Food Pans perform better than stainless steel pans. While stainless steel may feel colder to the touch, it's misleading. Stainless steel actually conducts and loses temperature while Camview plastic insulates and retains safe food holding temperatures.

Translucent GN Food Pans

GASTRONORM
STANDARD EN-631

Translucent GN Food Pans are made from FDA-approved, BPA-, BPS-, and PFAS-compliant materials, providing at-a-glance ingredient visibility and reliable, food-safe performance for storage, preparation, and service. An economical product solution for cold holding applications, they perform exceptionally on cold food bars and during preparation with their smooth, non-stick interior.

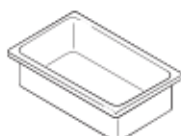

Uniform 1,27 cm flange ensures a smooth fit in prep tables and food bars.

Withstands temperature ranges from -40° to 85° C.

Translucent polypropylene material provides content visibility and high chemical resistance.

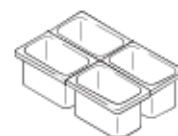

Non-stick smooth interior surface increases yield and promotes easy cleaning.

SafeTrak™ GN Food Pans

SafeTrak GN Food Pans include built-in labeling to eliminate waste, reduce risk, and simplify compliance. The GN Food Pans are accompanied by HACCP-recommended color-coded seal covers, as well as the SafeTrak pen, creating a complete, hygienic system for labeling, storing, and serving food in high-compliance operations.

GASTRONORM
STANDARD EN-631

- 6 color-coded translucent seal covers help prevent cross-contamination by clearly identifying food types. No more lost color clips.

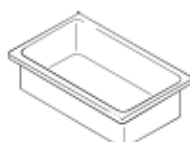

HACCP-compliant design allows you to write key traceability information straight onto the pan for safe and consistent food tracking.

Temperature range:
-40°C - 85°C.

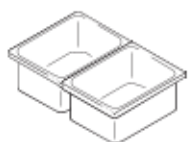

Dish washing safe up
to 93°C.

- Permanently molded-in label will never peel, fade, or smudge.

NISBETS

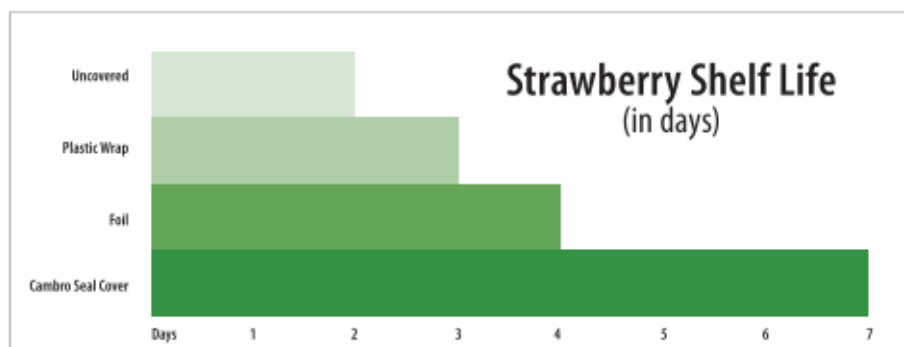

Seal Covers for Polypropylene GN Food Pans

Food spoilage is caused by a combination of air and oxygen, moisture, light, microbial growth, and temperature. What can you do? Use Cambro Seal Covers on your storage containers to keep out air, moisture and reduce cross-contamination.

HOW MUCH IS FOOD WASTE COSTING YOU?

Your total annual food cost x 5% = Approximate Cost of Food Waste

Third party laboratory testing has shown that when used properly with a Cambro® Food Pan, Cambro Seal Covers can extend the shelf life of produce by

2 to 3 DAYS

beyond storage versus plastic film, aluminium foil or no cover at all.

Cambro® Food Storage

FreshPro Series Freshness Extension

Independently tested by the Ecolab Center for Culinary Science, FreshPro Series Containers paired with their respective FreshPro Seal Covers double the shelf life of stored ingredients compared to other storage methods, while increasing freshness extension and overall food quality.

Seal Cover: 2x

Prevents oxygen exposure

Lifts ingredients out of their juices

Drain Shelf: 2 Days

Cost Savings Over A 5-Day Period

FreshPro Seal Covers

Operators can expect up to 50% cost savings by reducing spoilage frequency through doubling shelf life from 5 to 10 days.

FreshPro Drain Shelves

Operators can expect up to 29% cost savings by extending shelf life from 5 to 7 days for high-moisture produce like sliced tomatoes.

**By doubling freshness,
operators prep less,
waste less, and save MORE
without compromising on quality.**

NISBETS

Translucent FreshPro CamSquares®

FreshPro CamSquare Containers are translucent, BPA-free food storage containers built for demanding professional kitchens. A color-coded system of matching Seal Covers, drain shelves and easy-to-read graduations streamlines ingredient identification and improves operational efficiency.

Seal covers keep oxygen out and extend product shelf life by twice as long.

Peg holes on seal covers promote sanitary drying.

Curved corners and molded-in recessed handles promote safe, ergonomic handling and pouring.

Color-coded graduations are printed on the outside for quick inventory management.

Drain shelves lift ingredients out of juices, preserving freshness and quality.

Translucent FreshPro CamRounds™

FreshPro CamRounds are designed for effortless prep, pouring, stacking and storing. Sharing the same color-coded Seal Covers as FreshPro CamSquares, they maximize storage efficiency and simplify organization.

Seal covers keep oxygen out and extend product shelf life by twice as long.

Peg holes on seal covers promote sanitary drying.

Curved corners enable precise, four-sided pouring and easy cleaning.

Round base is ideal for mixing, stirring, and immersion blending applications.

Color-coded graduations are printed on the outside for quick inventory management.

Industry-first round drain shelves help extend shelf life and reduce food waste.

Translucent FreshPro CamSquares® Mini

Small quantity food storage finally has a reusable alternative thanks to 0,47 & 0,9 L CamSquares FreshPro Series containers. Ideal for storing mise en place, spice blends, fresh herbs and more, 0,47 & 0,9 L CamSquares FreshPro are the durable, sustainable alternative to single use, disposable plastic containers. One Easy Seal Cover fits both container sizes to help you be more efficient in the kitchen.

- Easy on/off Seal Cover, stays firmly in place.

- Peg holes on seal covers promote sanitary drying.

- Withstands temperature ranges from -40° to 85° C.

- Translucent polypropylene material provides content visibility and high chemical resistance.

- Non-stick smooth interior surfaces promotes easy cleaning.

Cambro® Pizza Dough Boxes

Pizza Dough Boxes

Cambro Pizza Dough Boxes are professional food-grade storage and proofing solutions designed to store, transport, proof, and cool pizza dough while keeping it fresh and preventing crusting. Made from durable, food-safe polypropylene, these pizza dough boxes resist impact, stains, and odors for reliable use in prep, refrigeration, and cold storage.

Boxes nest tightly together to keep out dirt and contaminants, extending product freshness.

Lightweight, durable, and break resistant.

Withstands temperatures from -40 - 85°C.

High temperature dishwasher safe.
