

Efficient both in its use of space and in its use of energy, the high-volume FilterFlow Automatic Water Boiler is perfect for busy staff rooms and anywhere where employees have to wait for the kettle to boil. Providing hot water on tap 24/7, the boiler also comes with a filtration system built-in to improve water quality. You can modify the settings via the clever colour touchscreen display, while the boiler is designed to save energy via its eco mode which learns usage patterns and switches to 50% volume.
