

WARNINGS IMPORTANT INFORMATION - READ BEFORE USE. Please adhere to all instructions detailed on the carton, product label and rack cleaning bags.

DANGER: CAUSES SEVERE BURNS TO SKIN AND EYES, HARMFUL OR FATAL IF SWALLOWED. DANGER OF SUFFOCATION - KEEP RACK CLEANING BAGS LOCKED UP & OUT OF THE REACH OF CHILDREN.

Avoid contact with skin and eyes. IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

Ensure your hands and arms are protected before inserting and removing the racks. Wear suitable protective clothing, impermeable gloves supplied, arm protectors supplied and eye/face protection. If swallowed, seek medical advice immediately and show the carton or label.

DO protect surfaces from any leakage. If spilled accidentally, wipe up immediately with a damp cloth.

DO inspect impermeable gloves and rack cleaning bag thoroughly before use.

DON'T leave the cleaning gel, rack cleaning bag or treated area unattended or where children or animals could come into contact with it. When leaving the filled bag unattended to soak, ensure there are no leaks and the surface you have left it on will not be affected by the solution.

DON'T place hot or sharp items in the rack cleaning bag with the cleaning gel. DO NOT use on aluminium, zinc, copper or painted surfaces, self-cleaning or non-stick surfaces.

KEEP OUT OF THE REACH OF CHILDREN

May be corrosive to metals. Causes severe skin burns and eye damage. If medical advice is needed, have product container or label at hand. Read label before use.

Keep only in original container. Wear protective gloves/protective clothing/eye protection/face protection. IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTRE or doctor/physician.

Absorb spillage to prevent material damage. Store locked up. Dispose of contents/container in accordance with local requirements for domestic waste disposal.

Contains amongst other ingredients: $<12\%$ SODIUM HYDROXIDE, $<5\%$ Anionic Surfactants, $<5\%$ Amphoteric Surfactants & EDTA

Our JUST FOR RACKS™ CLEANING KIT

WORKS 1st TIME*

Simply pour over racks in bag & rinse off. No scrubbing

**2 BAGS
2 CLEANS**

*WHEN USED AS DIRECTED

DIRECTIONS FOR USE

Please adhere to all instructions detailed on the carton, product label and rack cleaning bags. Always read all warnings and danger information before using this product.

- 1 Put on the impermeable gloves supplied and then the arm protectors supplied, sealing the arm protectors over the gloves. Place the racks into the bottom corner of a rack cleaning bag, ensuring you do not puncture in any way.
- 2 Pour half the cleaning gel into the rack cleaning bag, with enough to enable the racks to have a complete coating when the bag is laid flat. Leave the rest to use with the other bag, when you clean your racks again.
- 3 Before sealing, flatten the rack cleaning bag and get as much air out of the bag as possible, then close the seal.
- 4 Lay flat and then fold over the rack cleaning bag to make the smallest envelope to ensure all the racks are coated.
- 5 Place the rack cleaning bag on a flat surface and leave for one hour. Then turn the bag over to recoat with the gel and leave for another hour. When left, always leave in a safe place where the rack cleaning bag can't be interfered with. For stubborn debris and for the best results, leave overnight. Rinse the outside of the impermeable gloves and arm protectors and keep for the washing down stage. When leaving the filled bag unattended to soak, ensure there are no leaks and the surface you have left it on will not be affected by the solution.
- 6 **WASHING DOWN STAGE:** Put the impermeable gloves and arm protectors back on. Remove racks from the rack cleaning bag and rinse carefully in hot soapy water, then thoroughly with hot water only. Dry and return to oven or BBQ. The remaining gel and debris can be washed down the sink by using hot water whilst rinsing the rack cleaning bag at the same time.

Use within 24 months of opening.
