

Details make the difference.

When everything works together.

At RATIONAL, performance is achieved through a precisely coordinated system: appliances, digital applications, accessories, service and cleaning work seamlessly together. Down to the last detail.

RATIONAL cleaner. Designed for a perfect fit.

The cleaning and care products for the **iCombi** and **iHexagon** were developed in tandem with the cooking systems, precisely tailored to programs and components, and extensively tested under real-life conditions.

How you benefit.

1 Optimise the service life

Specially formulated cleaning and care products provide reliable protection for materials, gaskets, sensors, and other components.

- **Minimal** wear on sensitive components
- **Low** service and maintenance requirements
- **Stable, reliable** equipment operation

2 Ensure hygiene standards

Using the right cleaning and care products ensures consistent and hygienically flawless cleaning results in everyday kitchen use.

- **High** cleaning and descaling performance
- Support **HACCP-compliant** processes
- **Low risk of error** thanks to pre-set dosage

3 Save resources, time and therefore costs

Proper cleaning using the right products reduces the need for repeat cleaning and thus cuts down on resource consumption.

- **Optimal dosage** of water and chemicals, even with ultra-fast or eco-cleaning.
- **No additional** cleaning cycles
- **Minimal** expenditure of water, energy and time
