

HOST

Vacuum Sealer

Instruction manual

Model:
HOST0602VP

Read this instruction
manual carefully
before use

Safety Instructions

- Position on a flat, stable surface.
- A service agent/qualified technician should carry out installation and any repairs if required. Do not remove any components or service panels on this product.
- Consult Local and National Standards to comply with the following:
 - Health and Safety at Work Legislation
 - BS EN Codes of Practice
 - Fire Precautions
 - IEE Wiring Regulations
 - Building Regulations
- DO NOT immerse the appliance in water.
- The sealing bar becomes hot during use. DO NOT touch the sealing bar during or immediately after operation.
- Do not turn Off at the plug to halt operation; always use the **Cancel** button.
- Do not use the appliance for anything other than its intended use.
- Only use bags recommended by the supplier/manufacturer with the appliance.
- Always switch off and disconnect the power supply to the appliance when not in use.
- Not suitable for outdoor use.
- Keep all packaging away from children. Dispose of the packaging in accordance to the regulations of local authorities.
- If the power cord is damaged, it must be replaced by a recommended qualified technician in order to avoid a hazard.
- Children should be supervised to ensure that they do not play with the appliance.

- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience or knowledge, unless they have been given supervision or instruction concerning the use of the appliance by a person responsible for their safety.
- HOST recommend that this appliance should be periodically tested (at least annually) by a Competent Person. Testing should include, but not be limited to: Visual Inspection, Polarity Test, Insulation Continuity and Functional Testing.
- HOST recommend that this product is connected to a circuit protected by an appropriate RCD (Residual Current Device).

Location of Controls

Operation

- The Vacuum Sealer automatically comes on when plugged in.
- The Vacuum Sealer is now ready for use.

Vacuum Packing Food

1. Place the food in the bag and remove any excess liquid or food residue.
2. Allow minimum of 25-50mm of space at the top of bag to ensure a good seal.
3. Place the open end of the bag across the Sealing Strip, keeping opening within the chamber ring and close lid, pressing down with thumbs until the locks on both sides engage.
4. Press "**Vacuum Seal**" button. Indicator light will turn red.
5. Vacuum pump will engage until required vacuum level is achieved. Machine will automatically go into seal mode.
6. **Seal Only** indicator light will turn red as the machine starts to seal.
7. When sealing is complete red **Seal Only** light will go out . Press side lock buttons to release lid.
8. Remove bag and inspect bag and seal.
(**Note:** A good seal will look clear upon inspection. If the seal is spotty, incomplete, wrinkled, white or milky, remove sealed portion and run vacuum and seal process again.)
9. To stop process, press "**Cancel**" button. Machine will stop.

Using the "Seal Only" Function

1. Place the open end of the bag across the Sealing Strip, keeping opening within the chamber ring and close lid, pressing down with thumbs until the locks on both sides engage.
2. Press "Seal Only" button.
3. Indicator light will change to red as the machine starts to seal.
4. When sealing is complete red Seal Only light will go out. Press side lock buttons to release lid.
5. Remove bag and inspect bag and seal.
(**Note:** A good seal will look clear upon inspection. If the seal is spotty, incomplete, wrinkled, white or milky, remove sealed portion and run vacuum and seal process again.)

Cleaning, Care & Maintenance

Switch off and disconnect from the power supply before cleaning.

Always allow to cool before cleaning.

WARNING: Do not allow any water to spill into the appliance when cleaning.

- Use warm, soapy water and a damp cloth to clean the appliance.
- Dry thoroughly after cleaning.

Troubleshooting

A qualified technician must carry out repairs if required.

Fault	Probable Cause	Solution
The appliance is not working	The unit is not switched on	Check the unit is plugged in correctly and switched on
	Plug or lead is damaged	Replace plug or lead
	Fuse in the plug has blown	Replace the fuse
	Mains power supply fault	Check mains power supply
Appliance does not remove all the air from the bag	Open end of bag not completely inserted	Open lid and reposition bag
	Gaskets dirty	Clean gaskets
	Open end of bag is dirty	Clean bag
	Bag may be punctured	Replace bag
	Incorrect bags used	Consult a qualified technician
	Suction nozzle blocked	Clear suction nozzle
Bags are not sealing correctly	Lid is not locked into position correctly	Ensure lid is locked in position correctly
	Moisture in bag under the sealing bar	Ensure inside of the bag is dry and free from moisture where it is to be sealed
	Incorrect bags used	Consult a qualified technician
	End of bag not placed above sealing bar	Move end of bag over sealing bar

Service

Should your appliance have a fault, please visit the Service section of the HOST website.

Technical Specifications

Model	Voltage	Power	Current	Vacuum Pressure (approx.)	Dimensions (H x W x D) (mm)	Weight (kg)
HOST0602VP	220-240V 50Hz	110W	0.5A	-0.75 Bar	87 x 357 x 148	1.4

Due to our continuing program of research and development, the specifications herein are subject to change without notice.

Electrical Wiring

This appliance is supplied with a 3 pin BS1363 plug and lead.

The plug is to be connected to a suitable mains socket.

This appliance is wired as follows:

- Live wire (coloured brown) to terminal marked L
- Neutral wire (coloured blue) to terminal marked N

If in doubt consult a qualified electrician.

Electrical isolation points must be kept clear of any obstructions. In the event of any emergency disconnection being required they must be readily accessible.

Compliance

The WEEE logo on this product or its documentation indicates that the product must not be disposed of as household waste. To help prevent possible harm to human health and/or the environment, the product must be disposed of in an approved and environmentally safe recycling process. For further information on how to dispose of this product correctly, contact the product supplier, or the local authority responsible for waste disposal in your area.

HOST parts have undergone strict product testing in order to comply with regulatory standards and specifications set by international, independent, and federal authorities.
