CARE AND MAINTENANCE OF PU LEATHER CHAIRS

PRODUCT CODES GG646, GG647, GG648, GG649, GG650, GG651, GG652, GG653, GH444, GH443, GF954, GF955, GF957 & GF958

If you have purchased one of our PU leather chairs please pay attention to the following instructions:

Maintenance:

Periodically dust your chair with a clean, dry soft cloth.

It is safe to use some proprietary Leather Cleaning products that consist of Neutral Soap Solutions and Conditioners; however as PU leathers are already sealed and protected, the benefits are minimal.

Important
Some Leather cleaners and conditioners are not suitable for PU Leather and may shorten the life of the protective finish.
Please refer the Manufacturer's instructions for suitability.

Do not expose your Chairs to prolonged Sunlight, heat from Radiators or other heat outlets as this may cause fading.

Avoid extremes of Humidity.

For Dried Soiling:

Gently brush with a soft brush or gently clean with a vacuum cleaner.

For Wet Soiling and deep cleaning:

Gently remove the excess substance from the surface with absorbent paper. With a clean cloth soaked in a mild soap solution, gently remove the stain. Do not soak the leather surface, dry and buff immediately with a clean cloth.
