

Wine Cooler

Instruction manual

Model
CE202-A / CE203-A / CE204-A

Safety Tips

- Position on a flat, stable surface.
- A service agent/qualified technician should carry out installation and any repairs if required. Do not remove any components or service panels on this product.
- Consult Local and National Standards to comply with the following:
 - Health and Safety at Work Legislation
 - Fire Precautions
 - IEE Wiring Regulations
 - Building Regulations
- DO NOT immerse in water, or use jet/pressure washers to clean the appliance.
- DO NOT cover the appliance when it is operating.
- DO NOT store food in the wine cooler.
- Always carry, store and handle the appliance in a vertical position.
- Never tilt the appliance more than 45° from the vertical
- Not suitable for outdoor use.
- Keep all packaging away from children. Dispose of the packaging in accordance to the regulations of local authorities.
- If the power cord is damaged, it must be replaced by a POLAR agent or a recommended qualified technician in order to avoid a hazard.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Children should be supervised to ensure they do not play with the appliance.
- Polar recommends that this appliance should be periodically tested (at least annually) by a Competent Person. Testing should include, but not be limited to: Visual Inspection, Polarity Test, Earth Continuity, Insulation Continuity and Functional Testing.

- This appliance is intended to be used exclusively for the storage of wine.

Warning: Risk of Fire / flammable materials

- The refrigerant gas contained in this appliance is isobutene (R600a), which is low-polluting but flammable.
- Do not store explosive substances such as aerosol cans with a flammable propellant in this appliance.

Warning: Keep all ventilation openings clear of obstruction. Unit should not be boxed in without adequate ventilation.

- **Warning:** Do not use mechanical devices or other means to accelerate the defrosting process, other than those recommended by the manufacturer.
- **Warning:** Do not damage the refrigerant circuit.
- **Warning:** Do not use electrical appliances inside the food storage compartments of the appliance, unless they are the type recommended by the manufacturer.

Introduction

Please take a few moments to carefully read through this manual. Correct maintenance and operation of this machine will provide the best possible performance from your POLAR product.

This appliance is intended to be used in household and similar applications such as

- staff kitchen areas in shops, offices and other working environments;
- farm houses and by clients in hotels, motels and other residential type environments;
- bed and breakfast type environments;
- catering and similar non-retail applications.

Pack Contents

The following is included:

- Wine cooler
- Instruction manual

POLAR prides itself on quality and service, ensuring that at the time of packaging the contents are supplied fully functional and free of damage. Should you find any damage as a result of transit, please contact your POLAR dealer immediately.

Installation

WARNING: When positioning the appliance, ensure the supply cord is not trapped or damaged. Do not locate multiple portable socket-outlets or portable power supplies at the rear of the appliance.

If the unit has not been stored or moved in an upright position, let it stand upright for approximately 12 hours before operation. If in doubt allow to stand.

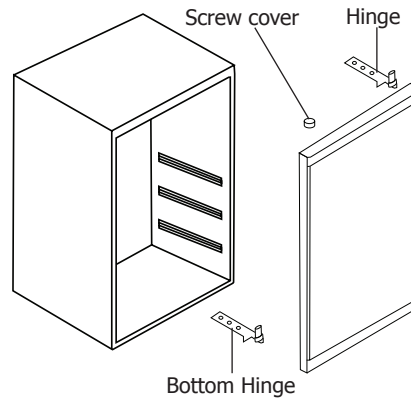

1. Remove the appliance from the packaging and the protective film from all surfaces.
2. Avoid positioning the wine cooler in direct sunlight or damp areas.
3. Maintain a distance of 10cm between the unit and walls or other objects for ventilation.
NEVER LOCATE NEXT TO OR NEAR A HEAT SOURCE.
4. If necessary, adjust the screw legs of the wine cooler to make it level.

Reversing the door

Depending on the location of the appliance, it may be necessary to change the direction the door of the wine cooler opens by changing the side of the door handle.

To reverse the door handle:

1. Ensure the appliance is disconnected from the power supply.
2. Tilt the appliance back slightly and prop it securely. The appliance must not be tipped back by more than 45 degrees.
3. Unscrew the door hinge screws on the base of the door and remove the Hinge.
4. Open the door slightly and remove the door in a downward direction.
5. Remove the screw cover from the top of the wine cooler with a small screwdriver.
6. Unscrew and remove the hinge from the top of the appliance.
7. Screw the door frame Hinge to the opposite side of the appliance and reattach the screw cover.
8. Fit the door into place by locating the upper Hinge first then closing the door.
9. Reattach the Bottom hinge onto the opposite side of the door.
10. The appliance can now be lowered into position.

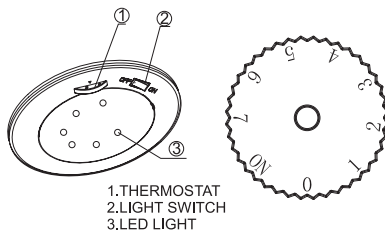

Operation

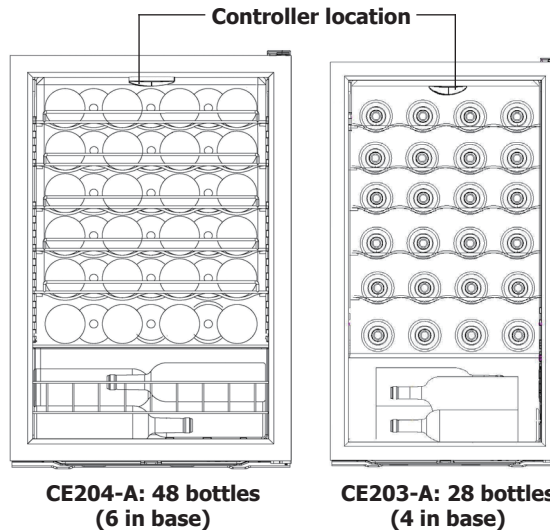

Controller

The controller for the CE203-A and CE204-A models is located inside the cabinet. These models have an integrated light that can be switched on using the switch on the controller.

The thermostat is graded from **0** (warm) to **7** (cold).

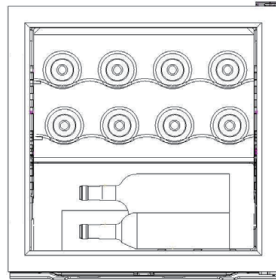

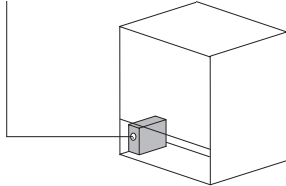

Controller for CE203-A / CE204-A

**CE204-A: 48 bottles
(6 in base)**

**CE203-A: 28 bottles
(4 in base)**

The controller for CE202-A is located at the rear of the appliance. The thermostat is graded from **0** (warm) to **5** (cold)

CE202-A - 11 bottles (3 in base)

Bottle Layout

To achieve the maximum capacity of your wine cooler, the bottles should be laid out as above.

Storing Mixed Bottles

Due to a slight temperature variance between the top and the bottom of the wine cooler, POLAR recommends that bottles of white wine are stored in the bottom of the wine cooler and bottles of red wine at the top.

Cleaning, Care & Maintenance

- Always switch off and disconnect the power supply before cleaning.
- Remove all bottles from the appliance.
- Warm, soapy water is recommended for cleaning. Cleaning agents may leave harmful residues.
- A POLAR agent or qualified technician should carry out repairs if required.
- Periodically clean the bottom of the wine cooler compartment to remove any build-up of condensation.

Troubleshooting

If your POLAR appliance develops a fault, please check the following table before making a call to the Helpline or your POLAR dealer.

Fault	Probable Cause	Solution
The appliance is not working	The appliance is not switched on	Check the appliance is plugged in correctly and switched on
	Plug and lead are damaged	Call POLAR agent or qualified technician
	Fuse in the plug has blown	Replace the plug fuse
	Power supply	Check power supply
	Internal wiring fault	Call POLAR agent or qualified technician
Appliance is noisy or works intermittently	Appliance is not level	Adjust the feet to level the appliance
Wine cooler cabinet is not cold enough	Temperature set incorrectly	Check temperature and reset if necessary
	External environment may require colder temperature	Check temperature and reset if necessary
	The door is opened too often	Only open when necessary
	Door seal is worn	Call POLAR agent or qualified technician
The light does not work	Bulb has blown	Replace bulb
	Light switch set to Off	Set light switch to On
Doors will not close properly	Wine cooler is not level	Adjust the feet
	Door has been reversed and not properly fitted	See "Reversing the door" on page 3
	Shelves are out of position	Check all shelves are properly inserted
	Door seal is dirty	Wipe clean with a damp cloth

Technical Specifications

Model	Voltage	Power	Current	Bottle Capacity	Refrigerant	Temp. Range	Dimensions h x w x d mm	Weight
CE202-A	220-240V~ 50Hz	85W	0.55A	11	R600a	2-12°C	510 x 430 x 480	18 kg
CE203-A	220-240V~ 50Hz	85W	0.55A	28	R600a	2-12°C	825 x 430 x 480	26 kg
CE204-A	220-240V~ 50Hz	85W	0.6A	48	R600a	2-12°C	820 x 550 x 570	36 kg

Electrical Wiring

The plug is to be connected to a suitable mains socket.

This appliance is wired as follows:

- Live wire (coloured brown) to terminal marked L
- Neutral wire (coloured blue) to terminal marked N
- Earth wire (coloured green/yellow) to terminal marked E

This appliance must be earthed.

If in doubt consult a qualified electrician.

Electrical isolation points must be kept clear of any obstructions. In the event of any emergency disconnection being required they must be readily accessible.

Compliance

The product must not be disposed of as household waste. To help prevent possible harm to human health and/or the environment, the product must be disposed of in an approved and environmentally safe recycling process. For further information on how to dispose of this product correctly, contact the product supplier, or the local authority responsible for waste disposal in your area.

POLAR parts have undergone strict product testing in order to comply with regulatory standards and specifications set by international, independent, and federal authorities.

POLAR products have been approved to carry the following symbol:

All rights reserved. No part of these instructions may be produced or transmitted in any form or by any means, electronic, mechanical, photocopying, recording or otherwise, without the prior written permission of POLAR.

Every effort is made to ensure all details are correct at the time of going to press, however, POLAR reserve the right to change specifications without notice.
